Work Experience

Bluefire Productions   June 2024 — September 2024

Intern   Seattle, WA

- ❖ Built a proof of concept web app for interactive e-books using the Openai API
- ❖ Set up a Go server for handling the API requests
- ❖ Made the frontend using an open source ebook rendering toolkit, Readium TS-Toolkit
- ❖ Helped my mentor understand TS-Toolkit, which he was using for a different project

Education

The Evergreen State College   September 2021 — December 2024

BS, Concentration in Computer Science   Olympia, WA

- ❖ A focus on security including network and application security, web exploitation, reverse engineering and binary analysis, and CI/CD
- ❖ Full-stack web engineering with AWS, Node, PostGres, and Prisma
- ❖ Gained leadership and project management skills working on group projects including a VR game in Unreal Engine and a gene sequencing project in Rust
